Revenue

- ✓ 2012 revenue: 1.070.392,00
Revenue obtained from IT project, PV installation, Energy services for Italy
- ✓ 2013 revenue: 530.969,00
In 2013 we changed our business model: from energy installation of PV field to optimization and monitoring service; so the revenue last year was mainly due to: IT project and Energy services for Italy.
The energy service was in the starting phase and so the revenue in 2013 was less than 2012, but the final result was positive too.
- ✓ 2014 expected: 700.000,00
